SUSISTENCE AGRIC BASED HH	77%
POPN USING FUEL WOOD	83.2%

OPERATIONAL OBJECTIVES OF SD

□ DEV'T PARADGIM SHIFT

- Growth that translates into improved livelihoods
- Meeting essential needs of employment creation
- Ensuring sustainable levels of population growth

□ MERGING THE ENVORN'T & ECONOMICS IN DECISION MAKING

- Reviving the coffee and banana sector 4 soil stabilization & income generation
 - Adapt SD policies, tools & systems to regional peculiarities
 - Demonstrate capacity to monitor our balance between carbon emission & absorption levels
 - Link all investments packages to SD
-

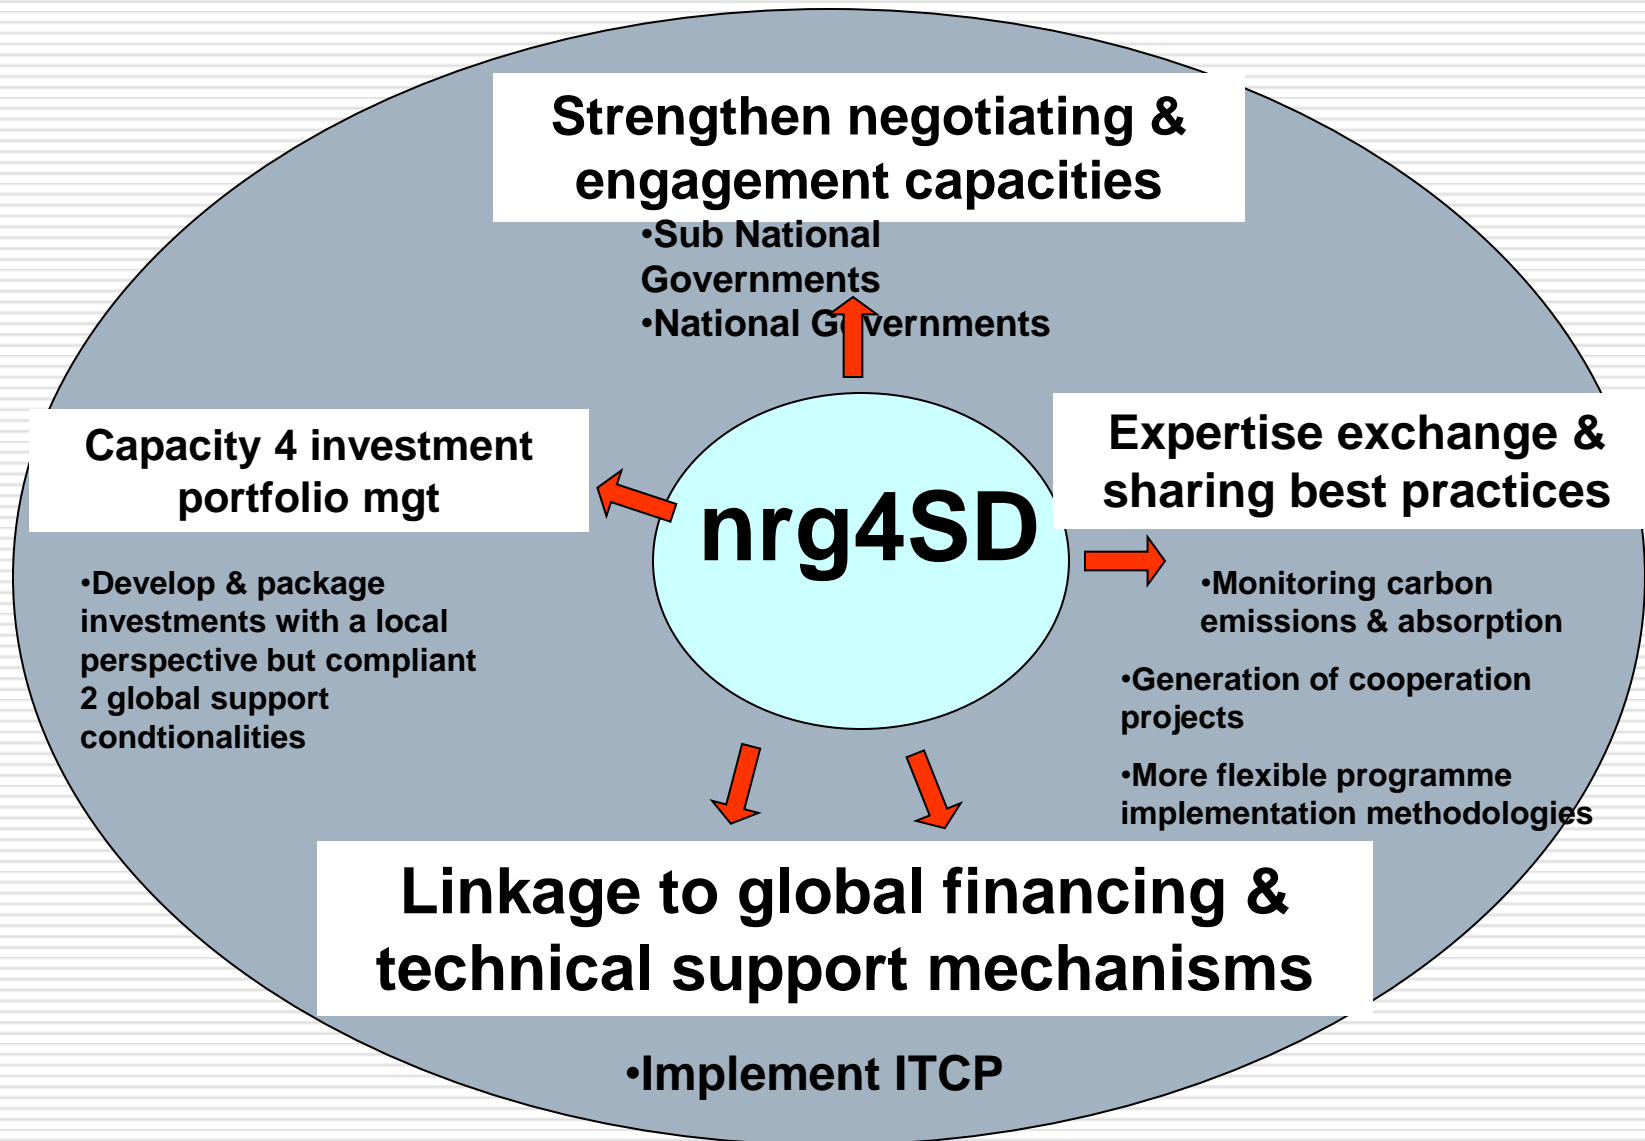

Value addition at sub national level

- **Exploitation of potential synergies**, the region is now viewed by the National Government as a pilot for the NAPA for CC; shift towards harmonization of measures for sustainable utilization of trans-boundary natural resources like Mt. Elgon National park
 - **Establishment of sub national institutions such as the Project Board; ITCP steering Committee; the Regional CC Forum which facilitate the ecosystem approach to management of shared resources**
 - **Improved coordination of stakeholders & refocusing development interventions to front SD**
 - **Experience sharing and lesson learning**
-

Governance systems

- A multilevel governance approach has been adopted to tap into higher & lower level technical & political structures – experiences & opportunities
 - At the lowest level is the Regional CC Forum – key stakeholders from technical, political & devt partners
 - The ITCP steering committee – technical arm drawing from the Lower, Higher & National technical departments;
 - The Board the overall governance institution for the programme drawing membership from the International, National & District representatives & private sector
-
